SKIN & LASER

The multi-award-winning Highbrow Skin and Laser Clinic was established in 2020 as a centre of excellence for advanced skin and laser treatments.

Today, we are the area's leading clinic for results-driven solutions for acne, rosacea, pigmentation, hair removal, anti-aging and more.

Our state-of-the-art lasers and technology allows us to deliver exceptional outcomes - with even more exciting advancements on the horizon.

From your first visit to your personalised follow-up care, we are committed to ensuring your experience with us is nothing short of outstanding.

LASER TREATMENTS

When it comes to offering fast and effective laser hair removal, skin rejuvenation, pigmentation and vein reduction, we have the world's leading laser system.

The GentleMAX Pro is the industry's leading, multi-wavelength system.

This device also has the advantage of having the industry's largest spot size of 24mm, allowing us to treat larger areas in a shorter amount of time which provides more comfort and less cost for our clients.

The built-in, cryogen based, dynamic cooling system ensures a much more comfortable experience for our clients, whilst also reducing the risks and possible side effects, therefore downtime will be minimal.

LASER PERMANENT MAKE UP REMOVAL

LASER SEMI-PERMANENT MAKE UP REMOVAL

The multi-award winning Highbrow Skin and Laser Clinic has become a centre for excellence in all aspects of permanent make up (PMU). Increasingly we are seeing clients who have had poorly placed, over saturated or sub standard PMU work carried out elsewhere and we are delighted to be able to remove and correct this for them.

We offer removal on all areas including the delicate eye area using our state of the art laser. Our level 4 laser specialists will advise and assess the areas that you wish to have removed and carry out a patch test as part of your PMU removal consultation. The number of treatments required and outcome will vary for each individual and this will be explained as part of your consultation,

MORPHEUS8

'Non-Surgical Facelift'

We are very excited to offer this treatment, which is widely considered to be the very best in radio frequency micro-needling or, as it is more commonly known, the 'Non-Surgical Facelift'.

Morpheus8 is a fractional skin treatment that stimulates collagen production of the underlying layers of the dermis. By targeting the deeper layers of skin, the tissues of the face and body can be remodelled to reveal a more radiant, youthful appearance. It has excellent outcomes for skin rejuvenation, acne scarring and stretch marks. The Morpheus8 almost acts like a defibrillator for your collagen and elastin production, which causes the lifting and tightening of the skin.

The benefit of using radio-frequency energy is that it is a scientifically proven method to remodel and rebuild collagen. It is also minimally invasive. Visible results can be seen within a few days, but typically after 3 months, the most noticeable results appear. Improvements will also continue up to 12 months after a course of treatment.

By using a 'micro-needling' delivery method, the skin is penetrated with 24 coated pins delivering radio-frequency deep into the dermis and sub-dermal tissue. The micro lesions trigger the body's natural healing response to produce new collagen, moulding the fat beneath the skin to tighten and contract the fat and connective tissue.

We recommend a course of 3 treatments spaced 6 weeks apart.
A luxury goodie bag is available for every Morpheus8 course purchased.

DERMAPLANING

DERMAPLANING

Dermaplaning is a safe procedure for exfoliating the epidermis and ridding the skin of fine vellus hair (peach fuzz) so it will not grow back thicker or darker. Gentler than dermabrasion and with no adverse effects, the technician uses a medical-grade tool to gently abrade the surface of the skin using light strokes.

Dermaplaning can be offered to clients who are pregnant as no peeling agents are used and removing epidermal skin allows products to penetrate more readily into the deeper skin layers.

Also suitable for clients with rough, dry skin or superficial hyper-pigmentation and acne scarring; this leaves the skin smooth and glowing.

ULTRA TESLA SEAT

The Ultra Tesla Seat uses advanced electromagnetic energy to stimulate deep pelvic floor muscles, delivering the equivalent of thousands of powerful contractions in a single comfortable session. This non-invasive treatment helps to strengthen and tone the pelvic floor, improve core stability, and enhance bladder control and intimate wellness. Suitable for men or women looking to restore confidence and core strength with no downtime required.

Using High-Intensity Focused Electromagnetic (HIFEM) technology, the Ultra Tesla Seat gives over 19,000 deep muscle contractions in just one 30 minute session in a private area within the clinic.

Whether it's post-baby recovery, ageing, or just everyday life – many of us experience leaks, weak muscles, or that feeling our body isn't quite as strong as it used to be. The Ultra Tesla Seat is here to help – safely, effectively, and non-invasively.

For women: Improve bladder control, reduce leaks, strengthen core muscles, and rebuild confidence from the inside out.

For men: Support pelvic floor strength, reduce urinary and bowel incontinence, and help improve erectile dysfunction – all without surgery or downtime.
